CORN

In a market where consolidation is constantly happening, and diversity is hard to find AgriGold stands out. With its own unique germplasm & access to other genetics, AgriGold continues to lead the way in bringing diversity & results to your operation. I believe AgriGold provides a corn lineup that is second to none, and one that continues to push the boundaries in Yield & Test Weight. Agrigold doesn't just talk, it performs! There's a reason 75% of our customers increased their AgriGold order in 2023!

Big 4 for 2024

SOYBEANS

Enlist, Xtendflex, & Non-GMO, we have them all! Between the Stine & Agrigold's soybean lineups we can provide your operation with the best soybeans on the market regardless of trait platform.

Big 4 for 2024

- AgriGold 3557 Enlist
- Stine 36EA02 Enlist
- AgriGold 3552 Xtendflex
- Stine 35N02 Non-GMO

SEED TREATMENT

As we continue to push the early planting envelope on soybeans, seed treatment decisions are becoming more and more crucial. We do the homework to make sure we protect & enhance your seed purchase from the moment it enters the soil. We pride ourselves in delivering high quality seed treatment that won't stick or bridge in the box and gets your soybeans up faster & stronger!
