

SEED RECOMMENDATIONS

2022-2023

BRAND

G3290XF **NEW**

RELATIVE MATURITY 3.2

INPUT	XTENDFLEX
OUTPUT	

PLANT CHARACTERISTICS

PLANT HEIGHT	PUBESCENCE	PLANT TYPE
Medium Tall	GRAY	Medium Bush

MANAGING FOR OPTIMAL PERFORMANCE

BROADLY ADAPTED SOYBEAN THAT EXCELS IN HIGH PRODUCTIVE ACRES THAT NEED GOOD EMERGENCE
EXCELLENT STANDABILITY & IDC TOLERANCE

BRAND

G3490XF

RELATIVE MATURITY 3.4

INPUT	XTENDFLEX
OUTPUT	

PLANT CHARACTERISTICS

PLANT HEIGHT	PUBESCENCE	PLANT TYPE
Medium	LIGHT TAWNY	Bush

MANAGING FOR OPTIMAL PERFORMANCE

ADAPTABLE TO ALL SOIL TYPES
EXCELLENT SOUTHERN MOVEMENT WITH GOOD STANDABILITY AND HARVEST LOOK

BRAND

G3692XF **NEW**

RELATIVE MATURITY 3.6

INPUT	XTENDFLEX, STS
OUTPUT	

PLANT CHARACTERISTICS

PLANT HEIGHT	PUBESCENCE	PLANT TYPE
Medium Tall	LIGHT TAWNY	Medium Bush

MANAGING FOR OPTIMAL PERFORMANCE

PRODUCTIVE ACRE VARIETY WITH GOOD STANDABILITY
STS TOLERANT LINE WITH GOOD TOLERANCE TO METRIBUZIN HERBICIDE PROGRAMS
EXCELLENT SDS

BRAND

G3724XF

RELATIVE MATURITY 3.7

INPUT	XTENDFLEX
OUTPUT	

PLANT CHARACTERISTICS

PLANT HEIGHT	PUBESCENCE	PLANT TYPE
Medium Tall	LIGHT TAWNY	Medium Narrow

MANAGING FOR OPTIMAL PERFORMANCE

OFFENSIVE VARIETY WITH BEAUTIFUL HARVEST LOOK
UTILIZE SEED TREATMENTS IN HEAVY PHYTOPHTHORA ENVIRONMENTS
EXCELLENT PRODUCT FOR EARLY PLANTING & SDS ACRES

Notes

LEGAL CONTENT

All orders and sales are subject to the AgriGold Terms and Conditions of Sale, which include but are not limited to the Limitation of Warranty & Remedy and Agronomic Zone and Planting Year. The Terms and Conditions of Sale are subject to change from time to time without prior notice. Refer to the 'Terms of Sale' tab at the bottom of www.agrigold.com for the most up-to-date Terms and Conditions of Sale.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. NOT ALL formulations of dicamba, glyphosate, or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology.

Seed containing a patented trait can only be used to plant a single commercial crop. It is unlawful to save and replant Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans, and XtendFlex® soybeans. Additional information and limitations on the use of these products are provided in the Technology Stewardship Agreement and the Bayer Technology Use Guide: <https://tug.bayer.com>. U.S. patents for Bayer technologies can be found at the following webpage: <http://www.monsantotechnology.com>

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium-based herbicides.

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contain genes that confer tolerance to glyphosate and dicamba. Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Glufosinate will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate.

Glyphosate herbicides will kill crops that are not tolerant to glyphosate.

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva Agriscience policies regarding stewardship of those products. In line with these guidelines, our product launch process for responsible launches of new products includes a longstanding process to evaluate export market information, value chain consultations, and regulatory functionality. Growers and end users must take all steps within their control to follow appropriate stewardship requirements and confirm their buyer's acceptance of the grain or other material being purchased. For more detailed information on the status of a trait or stack, please visit www.biotradestatus.com.

Seeds containing the Enlist traits are protected under numerous US patents. Seeds containing patented traits can only be used to plant a single commercial crop and cannot be saved or replanted. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Technology Use Agreement and (ii) the Product Use Guides for all technologies in this seed, including the Herbicide Resistance Management (HRM), and Use requirements detailed therein www.corteva.us/Resources/trait-stewardship.html.

To plant Enlist seed, you must have a limited license from Corteva Agriscience (or other appropriate affiliates). In consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

Always read and follow herbicide label directions prior to use: Enlist® products contain the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist® crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist products. Enlist E3® soybean seeds containing the Enlist® trait can only be used to plant a single commercial crop. It is unlawful to save and replant Enlist E3® soybeans. Additional information and limitations on the use of these products are provided in the Corteva Agriscience Technology Use Agreement and Enlist® Soybean Product Use Guide. U.S. patents for Dow AgroSciences technologies can be found at the following webpage: www.corteva.us/Resources/trait-stewardship.html.

Important: Always read and follow label instructions. Some products may not be registered for sale or use in all states or counties. Please check with your local extension service to ensure registration status.
